

FOR EARLY SEASON GROWTH AND DEVELOPMENT

FIRSTRIZE™ 6-25-6+ by New Dawn Crop Performance™ is a low-salt, 80/20 ratio of ortho-to- polyphosphate liquid fertilizer combined with a premium blend of 100% fully chelated EDTA micronutrients. Combined with one quart of Zinc per 5 gallon use rate, FIRSTRIZE™ is designed to supply key nutrition for early season growth and development.

PRODUCT BENEFITS

- Seed-safe, low-salt blend
- High quality pop-up fertilizer
- Addresses nutritional needs critical to early season growth and development
- Increases rootmass

NUTRITIONAL BENEFITS

Boron - Boron is vital to the growth and development of the plant. Boron is essential for maintaining a balance between sugars and starches.

Copper - Copper is important as a co-enzyme. It is needed to activate several plant enzymes, including building and converting amino acids to proteins.

Iron - is required for the formation of chlorophyll in plant cells. It serves as an activator for biochemical processes such as respiration, photo-synthesis and symbiotic nitrogen fixation.

Manganese - Manganese functions in chlorophyll development and serves as a catalyst in several enzyme systems in the oxidation-reduction process.

Molybdenum - helps to transform basic nitrogen into amino acids, which are building blocks for proteins.

Zinc - is necessary for starch formation and proper root development. It is also essential for seed formation and maturity.

SUPPLY KEY NUTRITION

FIRSTRIZE™ INGREDIENTS

Total Nitrogen (N)	6.0%
5.3% Ammoniacal Nitrogen	
0.7% Urea Nitrogen	
Available Phosphate (P2O5)	25.0%
Soluble Potash (K2O)	6.0%
Zinc	0.46%
EDTA Chelated	

+ When used at the recommended 5 gallon rate, FIRSTRIZE™ 6-25-6+ delivers one quart of zinc per acre.

+ AN ESSENTIAL BLEND OF MICRONUTRIENTS INCLUDING:

Boron (B)
Copper (Cu)
Iron (Fe)
Manganese (Mn)
Molybdenum (Mo)

Derived from: boric acid, copper EDTA, iron EDTA, manganese EDTA, sodium molybdate, zinc EDTA

RECOMMENDED USE RATE

FIRSTRIZE™ 6-25-6+ is formulated and labeled for both foliar and in-furrow applications on corn, soybeans and wheat, at a recommended rate of 5 gallons per acre.

When used at the recommended 5 gallon rate, FIRSTRIZE™ 6-25-6+ delivers one quart of zinc per acre.

PRODUCT AVAILABILITY

FIRSTRIZE™ 6-25-6+ is available in 250 gal totes and bulk tankers.
Weight: 11.3 #/gal.
